
ALEN P AJI

I am a web developer at IEEE SB SJCET, Palai, where I work on various projects that showcase my passion and skills in back-end web development. I am also a student of Computer Science at St. Joseph's College of Engineering and Technology, Palai, where I am learning the fundamentals and applications of programming, data structures, algorithms, and software engineering.

At IEEE SB SJCET, I have contributed to the development and maintenance of several websites and web applications, using Node.js and Django as the main frameworks. I have also collaborated with other developers, designers, and stakeholders, to ensure the quality, functionality, and usability of the web products. Through this experience, I have gained valuable insights into the best practices, challenges, and opportunities of web development, as well as the importance of teamwork, communication, and creativity. I am eager to apply my skills and knowledge to new and exciting projects that align with my values and goals, and to bring diverse perspectives and experiences to the team.

 Kottayam, Kerala, India

Work Experience

June 2023 - Present

Web Developer IEEE SB SJCET, Palai

As a dedicated web developer at IEEE within my college, I've had the privilege of working on a variety of exciting projects that have allowed me to hone my skills and contribute to our vibrant tech community. Here's a glimpse into my journey:

Education

2021 - 2025

St. Joseph's College of Engineering and Technology, Palai

Computer Science

Projects

SHOPPING CART

HOSPITAL MANAGEMENT

Created a full stack website of shopping cart to showcase my capabilities on full stack web development

Currently working on a project that unifies the medical details of patients to a single portal so that every hospital will get to know about the medical details of their patients thereby reducing the physical records
